Clinic and Class location:

52 Albert Street Warragul

The all important fine print on Tone Clinical Pilates class price options.

- ~ The Pre-Class Assessment is free when at the time of the assessment the client purchases either a 10 card, 20 card or unlimited classes pass. If the client does not wish to purchase classes at that time the assessment is charged for but may be claimed on private health insurance.
- To claim on Private Health Insurance you may choose to pay the casual rate at each class and make use of HICAPS claiming. The class is code 561.
- You may also request a receipt to claim on private health insurance any of the other payment options.
- Price per class quoted against the pricing options of casual class, 10 card and 20 card options are accurate. Price per class quoted against unlimited classes options is based on the assumption that on average 2 classes are attended per week.
- Some Tone Clinical Pilates classes are led by a fitness instructor, these classes are not claimable on private health insurance. These classes are charged at a slightly cheaper rate if paid for casually per class. Fitness instructor classes are included in all multiclass payment options for the same rate as classes led by physiotherapists. Sheryn Cutler is our only fitness instructor at time of printing. Classes that are regularly taken by Sheryn are recorded as such on the current class timetable on our website or available at the studio/clinic. At times Physiotherapists and Fitness Instructors will substitute for each other teaching classes to cover periods of leave, clients will not be specifically notified of these changes.
- The 10 Class Pass is alternatively also valid for 5 Rehab Clinical Pilates groups. And the 20 Class Pass is alternatively also valid for 10 Rehab Clinical Pilates groups. This is an excellent option for people who need to change from one type of exercise group to another. For example you may have done 4 Tone Clinical Pilates classes when Rehab Clinical Pilates is determined by your physiotherapist to be more appropriate. The 6 classes you have remaining are alternatively valid for 3 Rehab Clinical Pilates groups.
- 24 hours notice is required to cancel a Tone Clinical Pilates class without payment. Cancellation must be made by phone. No shows or late cancellations will incur a \$10 fee irrespective of the chosen payment method for classes. The \$10 fee also applies to clients who have classes funded through TAC, Workcover, DVA or any other third party. However, please let us know if you have unexpected extenuating circumstances.
- Suspensions, cancellations and refunds:
 - Must be requested in writing.
 - Are granted at the discretion of Through Life Physiotherapy management.
 - Are available if the client unexpectedly moves out of the area (more than 40km from Warragul)
 - Are available if the client is injured or has a medical condition where exercise in all forms offered by Through Life Physiotherapy is determined to be unsafe or detrimental.
 - Doctors certificates may be submitted, but the final decision will be made by a Through Life Physiotherapy Physiotherapist as we are experts in exercise and health conditions.
